

## MD-1001

Commercial-grade 10.1" tablet with Microsoft® Windows® 7 embedded operating system. The ideal mobile tool for professional applications: security camera setup and wireless monitoring, AV automation control system, visual communications from the field, or accessing updated field-service manuals. The MD-1001 enables mobility with your applications.

### Benefits

Embedded operating system for optimized performance

- Faster boot-up time
- Accepts all Windows-based applications

Solid State Drive (SSD) provides stable storage for mobile use

Built-in rechargeable lithium battery (2 ½ - 3 hours of service)

Built-in camera, microphone, and speakers for online communications

Wi-Fi, Bluetooth, and LAN connectivity (RJ45/USB dongle included)

3G mobile communications capability (requires SIM)

Exclusive Security Camera Setup Software

- Automatically detects cameras from over 80 top manufacturers
- Developed for ToteVision by Video-Insight

Cross-connect cable included for direct computer connections (as needed)

System Recover function to quickly restore the operating system to factory settings

### Accessories

TB-1001 - Custom tote bag with sunshield and shoulder strap

### Specifications

LCD Display	10.1" with LED backlight
Resolution	1024 x 600
CPU	Intel Atom N455
Memory	2GB DDR3 1333MHZ
Storage	32GB SSD (solid state drive)
Video Card	Intel GMA 3150
Wireless Connectivity	802.11 b/g/n; Bluetooth 2.1
Wired Connectivity	Ethernet with RJ45/USB dongle
Control Input	Resistive Touchscreen
USB Ports	x2 USB2.0
Mobile Communication	1x SIM port, 3G(UMTS) / GSM, 850/1900MHz
SD Card Port	Supports Micro SD Card
Operating Temp/Humidity	5-35C / 41-95F - 35% - 85%
Camera	Built-in 1.3MP
Audio IN	Built-in Microphone
Audio OUT	Built-in Speakers, Headphone Port
Power Consumption	6.5W
Power	AC 100-240V ; DC 12V
Weight	Net 0.9kg / 2lbs. / Gross 1.7kg / 3.7lbs.
