

M156-WR (TAA Compliant)

Durable 15.6" Full HD (1920 x 1080) LCD monitor in metal case provides stunning and detailed picture quality.

Benefits

- 15.6" screen is Full HD (1920 x 1080) 1080i/p with no downscaling
- LED backlight - brighter picture using less power
- Minimal depth - only 1.2" deep for mobile and areas with limited space
- Exceptional picture quality with video processing technology
- Wall mount or Rack mount capability
- TAA compliant

Application Scenarios

- Surveillance:** Full HD display monitor with HDMI inputs for receiving NVR/DVR connections to view full detail of 1080i cameras without downscaling or loss of detail. Monitor only has 1.2" depth which is ideal for mobile or field kit applications.
- Audio Visual:** Personal size Full HD production monitor for viewing video sources either in the field or in a rack (hub).
